Business continues dull, but not more than i usual for the season. None of the Philadelphia Banks estemplate a resumption of specie payments until they know the shele story is relation to a National Bank. Already, as we learn goat one half of the debt due by the Philadelphia Institutions to the gat has been paid. Our Banks generally are husbanding their re- or other purposes, such as a coffee or refreshment room. There are suces and endoavoring to fortify their position. It is understood as the urgent interest will certainly be paid. The money was prinspally obtained of the Girard, Commercial, Philadelphia and Southwith Banks, being 3; per c. nt. on their capitals.

The Massillon (Onio) Gazette says: The gross amoust of Flour direct at this Collector's Office, during the last year, was 40,921 barge, which was equal to 304,065 bushels of wheat. And of wheat there as cleared at this place 544,572 bushels; making an amount equal to 1971 bushels of wheat.

Genero, July 20.—Flour has declined during the past week, and is 1980 bushels from \$5.00 to \$2.50. The improved prospects of the new crop about coming in, have given a downward tendency to 1980. So bushels \$5,122 was refused at another mill.

New Orders, have changed hands on Saturday at one of our 1981 at \$5, while \$5,122 was refused at another mill.

New Orders, July 17.—During the past three days 2 better feeling has prevaled in the cotton market than we have noticed for some impast, and the sales have reached almost 1100 bales at an advance of fall it on previous quotations. Notwithstanting the steamer's advances amounced a further decline in the Liverpool market, our buyers we disposed to consider the news more favorable, inasmuch as a revivilhad taken place in the demand.

Tobacco—The market has been very quiet since our last, and the 18 not exceed 100 hinds. We have no change to notice in prices, which continue to be well supported. Fair lots command 41 to 15,61 and 61, and 65 to 67 for N. Seconds and Firets.

THE EAGLE COOKING STOVE.

THIS nearly invented Cooking Stove, adapted to the use of Coal or Wood is far superior to any other now in use. The oven, which is larger than that of any other Stove of the same size, is protected in part by a patent guard-plate which prevents it from becoming too, much heated, and serves also to protect the dille from becoming filled with coal or other obstructions to the draft. It also has a patent damper in for the purpose of conveying off the vapor arising from cooking, and also the dust ari ing from the coal. The back boilers, which is other Stoves are rendered almost useless by their rendeness from the blaze, are so situated as to receive the same benefit from the fire as thoso in front. Another very important recommendation to the Eagle Cooking Stove is that it requires less fuel than any other patent now in use.
